
Are you happy now?

Dear BOD and Dr. Lysko, (Not including, Tristan, Kristen, or the Acacia Reps).

I am just wondering are you're happy now?

It is in my opinion, that we lost fabulous teachers, specialists, and our fearless, courageous, strong principal because of your carelessness. I feel like the reckless spending, the uncertainty of if a paycheck is coming, the carelessness of your actions is a direct reflection of teachers and staff leaving. Enough is enough. This is not about the greater good for the children anymore, if it was, you would not be forging ahead with these ridiculous plans. To me this feels very much like the greater good, is your cooperation. To me it is sickening that you will stop at nothing to see a dream of a man that no longer is part of TVLC, through. For the first time I am embarrassed to be part of this community, I am saddened we are losing the very best because of your actions. And lastly I am frustrated at the lack of respect coming from your end. I have yet to receive an email back, informing me you received my email(s). I have yet to hear about the next Town Hall meeting, we were told that there would be several, a "series". There's been one. We were told the parking lot could not move forward unless Dr. Lysko signed off on it, we were told, the teachers will not be affected by the upcoming decisions. Lies, each and everything listed above, a lie. We have not heard about future meetings, I have not received email response notifications, the parking lot happened without Dr. Lysko signing off on it, and without the board vote. Teachers, families, and staff are dropping like flies. Enough is Enough. So I ask again, are you happy?

Things needs to change. It needs to start from the top. That's you, it seems to me like you need to be reminded that you represent us. And "the us" is telling you to stop major finical expenditures until we see the reports, the audit committee actually "committees" and doesn't get cancelled last minute, the NOC's, the NOV's, the cease and desist letter are all taken care of. These are all things we, the parents should be updated on, these are all things that should be handled before MORE spending occurs.

Respectfully,
Lynnette Shurko
