LVCS School Council Members,

I understand that in this week's council meeting, discussion took place relative to the visit by TVLC to NJESD (aka New Jerusalem) in Tracy during the week ending 3/19/2016. I further understand that at some point you were told that NJESD Superintendent David Thoming apologetically stated something to the affect of "sorry I am being an a**hole".

I wanted to get a clear understanding myself, therefore contacted the Superintendent today. When I mentioned the dialogue he said:

"Nope. I said "sorry if I came off as an a**, but I am just doing my job". He then said that he was told by TVLC "yes you are and keep it up."

That meeting did not appear to resolve the NOVs from NJESD. I understand that the Superintendent expressed concern over missing information, operating practices and various other factors.

I'm sure I missed some if the facts, but advise if you are interested that you reach out as I did and talk with the Superintendent. He is understandably busy, but I have found him to be concerned about education, safety of kids, is very charter friendly and has been very responsive during normal business hours.

The Superintendent's contact information can be found at:

<http://www.njesd.net/>

He can be reached via email at:

dthoming@njes.org

Regards,
-dc
